

## **Salamis upgrades its fleet with the purchase of new tractors and refrigerated trailers for the transport of medicines**

In a continuous effort to upgrade and renew our fleet in the sector of International Road Transport and Logistics, Salamis Organisation would like to announce the purchase of new tractors and specialised refrigerated trailers for the transport of medicines.

The purchase of new tractors and trailers is in accordance to the Organisation's strategy to renew its fleet approximately every 5 years.

The purpose of the renewal of the Organisation's fleet is the reliable and safer transport of goods, while complying with the latest European Standards and Regulations.
